

Klein Creek Deserves a Seat At the Table

- **Vote YES**— To make issues that are important to Klein Creek be important to Winfield.

Make Klein Creek views about issues like noise from the golf course banquets, the condition of our roads, the cost of our water and the services we receive important.

- **Vote YES**—To have someone from Klein Creek represent our neighborhood when Winfield wants to impose new taxes.

Klein Creek hasn't had political representation in Winfield since 2005. Since 2005 the village has been run by a political action committee from the southern corner of the village. We need to make sure all views are represented especially when the village decides to raise revenues on the backs of KC residents.

- **Vote YES**— To lower the costs to run for elected office.

If Winfield is districted, not only will our trustee come from our neighborhood but they will only have to campaign in our neighborhood. This will reduce the cost to run for office and increase the applicants. More people running to represent Klein Creek means more talent representing our neighborhood.

- **Votes YES**—To make your trustees accountable and get our village focused on progress.

Winfield politicians need to focus on cutting expenses and growing sustainable revenues. Districting will spread out the trustees power and focus them on being accountable to their districts instead of fighting with each other.

On March 20th you will have a choice to district Winfield into 6 districts with 1 trustee coming from each district. Please vote YES.

District Winfield
